Manison, and., 1858.

Dr. Gro. W. Prillips, Cincinnati, Ohio;—Having used several small bottles of your "Cough Syrup, personally and in my family, and having seen its effects on others, in numerous instances of severe cold and coughs, I most cheerfully recommend it as an infallible remedy in all such cases. If this Syrup were in general use, I confidently believe a large majority of the colds, accompanied by coughs, that now terminate in Consumption, would be effectually arrested, in fact, I can see no necessity for any, who can obta this remedy, being thus afflicted.

Respectfully yours,

SHE ALWAYS MADE HOME HAPPY. BY "HARRIE."

She always made home happy!
With her kind and winning ways,
With her voice of cheerful gladness,
With her cheerful hymn of praise.

She always made home happy!
Though she charmed no passes
With the beauty of her person,
Or the brightness of her eye. Though no pearls or rubles glittered 'Mid the ringlets of her hair.
In her heart there shone a radiance Of a jewel far more rare.

She always made home happy! Though her song was not divine, Though no harp beneath her fingers Thrilled to notes almost sublime. Though no artist, yet she painted Many a beam of heavenly love On the friendly faces round her, That shall shine in realms above

Governor Hincks, of the Windward Islands, arrived in New York on Thursday. He is en route to Canada, where a cordial reception from the moderate Liberals of both Provinces awaits Mr. Hincks is a man well known in the United States, and it will, no doubt, be recollected that at the time of the insurrection in Canada, he threw himself heartily into the struggle—contending temperately, but firmly, for the rights of the people in opposition to the tyrannical usurpations of the governing clique, known as the Family Compact. To him belongs the honor of being the first British subject who had the courses to establish a Liberal ject who had the courage to establish a Liberal newspaper in the Upper Canadas—several numbers of which, at the first, had to be printed in Buffalo, and from thence smuggled cross the lines.

Though a stanch Liberal, he fell, however, under the ban of the Scotch, or extreme party, against whose unwise policy he protested from the outset. And to the eternal infamy of that section (called, also, "Clear-grits"), it must be said, they have never ceased to malign, misropresent, and otherwise injure one of the most whole-souled men Canada or any other country ever saw.

On the occasion of his appointment, in 1855, to the Governorship of the Windward Isles, he to the Governorship of the Windward Isles, he was literally feasted out of Canada—the last of those splendid suppers being that given by the late Mr. Zimmerman, the railroad contractor, at his palatial residence near Niagara Falls. At those "re-unious" Mr. Hineks declared that, with but one exception, he never sought to vindicate his character, public or private, from the infamy which the Brown rath cases.

rom the infamy which the Brown party cease-essly endeavored to heap upon it, by an appeal to the Judicial Courts—preferring to let his acts, first as a patriot, and then as a minister of the crown, stand forth as a living refuation of the slanders by which he was assailed. The one exception referred to was to clear himsolf of the charge of being the author of cer-tain damaging letters which the Clear-grits had long been circulating. The author of those forgeries, being found, was brought to trial, when the fellow pleaded guilty, and with-out hesitation, Mr. Hincks immediately aban-doned the prosecution.

He has often said that he was never afraid f PRINTER'S INE. However black it may have, at times, represented him, he would never seek to limit its power; but, by the use of the same material, endeaver to correct the errors of those who abused it. Having commenced his prosperous career as a newspaper editor, he would be the last in the world to interfere with the free action of the public press. Mr. Hineks will, in all probability, be the next Governor-General of Canada.

STRIKES THE SIGNS OF REVIVAL .- Says the New York Herald: "One of the surest indications of returning prosperity is the movement in the labor market, indicated by what are called strikes. These never take place when depression prevails in the different branches of industry, for then the supply of labor is always greater than the demand; and when that is the case, the artisan will somer work for the half loaf than run the risk of getting no bread at all. Neither do we, in ordinary seasons, when but little stimulus is felt, and when the deand and supply are about equal, hear of these movements among workmen. They know just as well as their employers when it is time to put on the screw, and they rarely compromise themselves by attempts which are likely to prove abortive. When, therefore, we find a general turnout among the artisans employed in our large establishments, we may safely argue that things are wearing a pros-perous aspect, and that a season of unusual commercial activity is at hand."

RIOTS AT PANAMA.—On the 28th of February popular tumult occurred at Valparaiso, S. A, by a party of armed citizens, making an assault upon the Intendencia, who being repulsed by the soldiers on guard, next endeavored to fire the building, but failed in this also. While this was going on, another body of lawless fellows broke into the Custom-house and seized the rifles and muskets there stored. A seized the riles and muskets there stored. A fight between them and the army followed, which continued about an hour, when the insurgents retreated. An Englishman named Jones, was shot dead by the soldiery, who imagined that he had harbored some of the insurgents. After being shot down in the presence of his wife and children, he was then dragged out in the streets and beaten to death with repeated blows from the butterneds of muswith repeated blows from the butt-ends of mus-kets. From 100 to 150 were killed. Several executions followed the next day.

A VERY FOOLISH CLUB .- The "Local," of the Buffalo Commercial Advertiser, says that in accidentally looking at some printed local records of that city, about twenty years since, he found mention of a Bachelor's Club, composed of one hundred and twenty-seven members. The rules permitted no member to marry without the consent of two-thirds of the members. In one year, out of fifteen officers, seven were expelled for disobeying the ordinance, and the following year, 1842, all the officers were expelled for the same high misdemeanor. The erime of matrimony was rampant just then, and whether there was a general stampede of the members to the matrimonial altar, does not appear. At any rate, the names of many middle aged citizens, heads of families, and apon whose heads honors and wealth have been since showered, appear among the mem-bers, and the Bachelor's Club has gone the way of all other celibacy.

THE EARTH GROWING BIGGER.—A Captain Alfred Dayson has published a work in England, the object of which is to prove that our earth is growing larger, and our aistance from the sun increasing. He observes that measured legrees of the meridian in modern times have often been lenger than those of older time. the yearly growth of the planet seems to be tated at three-quarters of an inch in the mile When the earth becomes as large as Jupiter, the obliquity of the celiptic will be only two degrees. Unhappily, at a rate of growth of only three-fourths of an inch in a mile every year the desirable result will not arrive in our

WHIL LOPEZ PAY?—"A New York sufferer," writing to the New York Herald, thinks he will not. He says: "Please favor me by giving me this opportunity to predict, that if lopez has had the address to refer the amount of indemnity to the American Company to an arbitrament at Washington, the company will never see one penny of their claim. Endless lelay will occur, testimony will have to be taken at Assumption, questions of law will be interposed, and nothing will be done. Lopez seems to be a match for the d—I himself, and as to our ever sending another fleet there, that is out of the question.

THE WELLSVILLE APPRAY.—The Wheeling Times corrects the first account published of the affray in the railroad car near Wellsville, which appeared in the Press a few days since. The corrected statement makes a party of three men, who came on board at Wellsville, the aggressors, and represents Moore as firing in self-defense. A lady on the car at the time has made affidavit to facts which throw the responsibility of the affray on the three men, who are not yet in custody. Mr. Moore lives on Wheeling Island, and is known along the Ohio. He will

circumstance has already been reported in the "Press;" but as the deceased gentleman was once notorious among Ohio politicians, a more

extended notice will not be deemed superflu-

On Wednesday sennight, Mr. Achilles Tuller committed suicide at his residence in Mt. Vernon, Ind., by blowing his brains out (according to the Columbus Fact) with a pistol. He was formerly a resident of Tiffin, Ohio, having in preceding years amassed a competency in the brokerage business. He married a fine, ami-able lady in Stark County, and no person seemed to enjoy life more than he did. Getting into trouble about the time that Breslin's term as State Treasurer was expiring, he soon after removed to Pittsburg, and subsequently re-turned to Ohio, settling in Franklin County. Here, it is said, he was subjected to so much annoyance from political enemies, that he felt compelled to remove again. He took up his compelled to remove sgain. He took up his residence, says the Fact, in Mt. Vernon, Indiana, and holding intercourse, or communication, with no one in relation to his unfortunate past, living in the strictest seclusion and under an assumed name, away from his own and his wife's friends. At the stated times during the sessions of Common Pleas Court, in Franklin County, when the trial of Gibson would probably occur, Tuller would be there, a daily visitor at the Court-house, with the avowed intention of giving testimony against him. But the cases were invariably continued, and Tuller would return to his family and seand Tuller would return to his fainly and se-clusion, refusing to inform his friends at Co-lumbus of his determination, except in answer to their repeated inquiries, replying "I am going home." The cause of this last, fatal act, on the part of the unfortunate man, may probably be traced, in some manner, to the secrets and intrigues of Ohio politicians. The Mt. Vernon Advocate says that it was

by means of a razor the deceased terminated his existence. Taking advantage of the his existence. Taking advantage of the brief absence of his wife, whom he requested to go to the Post-office, he obtained a razor, made sure of his aim before a mirror, and with one stroke severed the carotoid artery. Medical aid was immediately summoned, but ere it arrived, life had fled. It has been developed since the fatal occurrence, that a tendency to insanity is hereditary in his family, and that he himself has, on a number of occasions, manifested unmistakable symptoms of mental derangement.

FRIGHTFUL SCENE,-At Columbus, Ohio, on Monday last, as the relatives of a lunatic were emoving him from the Central Asylum to the Infirmary of the county to which he belonged and while waiting for a train at the depot, the unfortunate attempted to throw himself under the engine, and actually succeeded in doing so The locomotive was one used on the grounds and almost constantly in motion, and the efforts of several persons were necessary to remove him .- City Fact.

ION BLANK BOOK MAKERS, PRINTERS & STATEMERS \$100!--Proclamation!

Wonderful Medical Cures by the Ap-plication of Prof. DE GRATH'S ELECTRIC OIL ON MAN AND BEAST.

To the Inhabitants of Philadelphia and Vicinity; I propose to cure, almost instantaneously, indiriduals afflicted with Deafness, Headache, Neuralgia,
thill Fever, Ague. Rheumatism, and all Sores and
Pains.

I propose to check and effectually dissipate more
sche and pain, and to accomplish nearer and more
perfect equilibrium of all the circulating fluids in the
numan system, than can be effected by any other, or
all other, methods of medical aid in the same space of
time, the masses themselves being judges.

I do not propose to cure schem delease, but all such
as are curable by any combination of medical appliances. My Electric Oil operates on chemical and
electric principles, and is, therefore, applicable to the
cure or natural restoration of any organic derangement, arising from an improper circulation of Nervovital fluid.

I want the masses to join in this matter—the well vital fluid.

I want the masses to join in this matter—the well as the sick—because if these things are so, all are slike interested.

N. B. Please inform me of any case of failure to cure, in from half an hour to three weeks, as I wish to cure, or charge nothing. Depot, Philadelphia.
